

## Brandon A. Singletary

### Objective

I am a graduate student in the Epidemiology program at the University of Alabama at Birmingham School of Public Health. I have experience in both research and clinical settings, and am eager to learn more. As a highly driven and diversified individual, I bring an outgoing personality to any situation with the ability to work collaboratively to achieve goals. Though I have some experience in public health, I am looking to further my knowledge in all aspects of the field in order to gain a more complete understanding of health care. While working to acquire more experience, I will continue to pursue a graduate degree and to ultimately attain my doctorate in Epidemiology.

### Technical Skills/Proficiencies

- SAS, SPSS, Excel, and JMP data entry and management experience
- Research Lab experience (Administration, Experimenter, Statistician, Confederate)
- Knowledgeable of mental and physical disorders
- Proficient in communication and people skills
- Experience with psycho-social education classes for inpatient psychiatric patients
- Professional CPR, AED, and First Aid certified
- High levels of computer and software experience
