1550 Platte St. A412 • Denver, Colorado 80202

## RELEVANT WORK EXPERIENCE:

### **Research Associate, Institute for Environmental Solutions (IES)—Denver, CO (July 2012-Present)**

- Develop and implement workshops educating elementary students about water contaminants.
- Develop and present adult community workshops informing consumers about water contaminants found in household and personal care products.
- Update and organize the IES website.
- Conduct background scientific research on contaminants of emerging concern.
- Write and review grant applications for project funding.

### **Sales Associate, Scribbles Stationery and Invitation—Denver, CO (June 2013-Present)**

- Provide customer service by greeting customers upon their arrival and answering questions.
- Arrange and organize merchandise to provide a clean and clutter-free environment.
- Process customer purchases and returns.
- Scan stock items for annual inventory.

### **Summer Intern, Poudre Learning Center—Greeley, CO (May-July 2011)**

- Utilized a ground penetrating radar to determine locations of 3 groundwater monitoring wells.
- Collected soil probes to learn about the subsurface geology of the location.
- Educated K-12 students on environmental issues including water quality and habitat preservation.
- Performed upkeep on the property to ensure a safe and natural grounds.

### **Office Volunteer, Greeley Area Habitat for Humanity—Greeley, CO (September 2009-December 2011)**

- Weekly office volunteer and construction volunteer.
- Entered volunteer information into computer database.
- Organized files for families obtaining homes through Habitat for Humanity.

### **Environmental Department Intern, Crop Production Services—Loveland, CO (May-July 2010)**

- Compiled environmental regulations on secondary containment of fertilizer and pesticides.
- Researched state reporting requirements for information on reporting chemical spills.
- Filed TRI Form R with the Environmental Protection Agency to report chemical releases.
- Researched articles for nitrate remediation and sensors as options for remediation of contaminated sites.

## EDUCATION:

### **Masters of Applied Science: Environmental Policy and Management, Emphasis: Natural Resource Management**

- University of Denver (DU), Denver, CO, November 2013
- Capstone Project: Pollution prevention versus wastewater treatment for the removal of nonylphenol in Louisville, Colorado

**Bachelors of Science: Earth Sciences, Emphasis: Environmental Science**

**Minor: Geography**

- University of Northern Colorado (UNC), Greeley, CO, May 2012
- *Magna cum laude*
- Undergraduate Academic Scholar, 2011, 2012
- National Undergraduate Scholarship
- Dean's Honor Roll

**PRESENTATIONS:**

Stucky, A.N. & Lyons, C. (2013). Blue Crew Water Stewards: Tackling the CEC problem through youth education. Consortium for Research and Education on Emerging Contaminants (CREEC) September 2013 meeting, Denver, CO.

Stucky, A. N. & Runyan, I. (2012). Ground penetrating radar: Determining locations of groundwater monitoring wells. UNC Research Day, Greeley, CO (Poster Presentation).

**INTERESTS:**

Avid skier, runner, and hiker. Appreciate nature, memoirs, and good food. Enjoy spending time with friends and family and discovering new restaurants in Denver.
