## Related Experience

### Planning Methods – Class Project: Fall 2018

Walkability Study for WalkDenver: Albion Study Area

- Retrieved demographic data from the US Census Bureau and analyzed it
- Conducted one of five pedestrian counts at an intersection and collected data on pedestrian infrastructure using WALKscope
- Surveyed pedestrians on their experiences walking in the area
- Created a map displaying key findings from our data collection
- Collaboratively formulated gaps and recommendations for the walkability of the study area, created a final report, and presented our findings

Programs Used:

Microsoft Word  
Microsoft PowerPoint  
Microsoft OneDrive  
Microsoft Excel  
WALKscope  
Adobe Illustrator

### Virtual Tech. and Design Senior Capstone: Fall 2015 – Spring 2016

Interactive Visualization of the Status of Salmon in the Columbia Basin

- Designed a decision-making game that educates the public on the ecological impacts humans have on salmon using gathered research
- Led a team to produce a prototype of the game using Adobe Muse
- Designed and animated the salmon in the game prototype
- Wrote some of the questions players are asked and figured out how they impact the salmon and the community in terms of score
- Determined what scores would lead to certain conclusions
- Collaborated with the team to create a decision-making map of how each question leads to a different question

Programs Used:

Adobe Muse CC  
Adobe Animate CC  
Libre Office  
Microsoft PowerPoint  
Google +  
Coggle

### International Studies Senior Capstone: Spring 2016

White Paper on Improving Access to Sanitation in South Asia

- Researched problems with sanitation access in South Asia and possible solutions to inform the paper
- Wrote a high quality paper that defines the problem and various solutions
- Delivered an oral presentation on my research and findings
- Published in the Journal of the Martin Institute (Volume 8, 2016)

Programs Used:

Libre Office  
Microsoft PowerPoint

### Co-editor of the Journal of the Martin Institute: Summer/Fall 2015

Martin Institute, University of Idaho

- Collaborated with my co-editor and selected white papers to be published (Volume 7, 2015)
- Read and evaluated each white paper up for publication

Programs Used:

Libre Office

## Related Experience

### Distinction in International Service Award Committee: Spring 2015

Junior Class Representative, University of Idaho

- Researched non-governmental organizations based in the Northwest with an international focus
- The rest of the committee and I presented and discussed our individual research and selected the award recipient

Programs Used:

Libre Office

### Studio Class Project

Animation about Innovation and the University of Idaho: Fall 2014

- Worked collaboratively in a team of six to create a video
- With two team members, assembled a list of potential interviewees and conducted and filmed the interviews with faculty members
- Edited one third of the footage and audio of the interviews using Adobe Premiere and Adobe Audition

Programs Used:

Adobe Premiere Pro CC

Adobe Audition CC

Libre Office

## Education

Masters in Urban and Regional Planning  
University of Colorado, Denver, CO  
Graduation Date: May 2020

Virtual Technology & Design, B.S.  
International Studies, B.A.  
University of Idaho, Moscow, ID  
GPA: 3.77  
Graduation Date: May 2017

Fall 2016 Semester Abroad:  
Kwansei Gakuin University  
Osaka, Japan

## Work Experience

### Student Assistant II:
