

Water Cycle Game

Worksheet

Names: _____

Instructions:

1. Write the name of each location you visit in the Location column. Follow the directions written on the Location Instruction Sheet. If you need to answer a question, do so next to the Location column. If you visit a location more than once, choose a different question to answer.
2. In the Pollution column, write the number of pumps of tea and spoonfuls of beads you added to or removed from your water at each location. Then write the new total amount of tea and beads.

Pollution

Pumps of Tea Spoonfuls of Beads

Location			Total:	0	Total:	0
